

Our finest and bravest young men and women are suffering greatly in fighting for our freedom on foreign battle fields.

Congressman Palazzo voted to cut their combat and hazardous duty pay. This is unconscionable! Palazzo has a history of cowardice in using his political pull to avoid deploying with his Guard unit to Iraq. He was even overheard bragging that while his Guard buddies were being shot at in Iraq; he was back home pulling down two full time paychecks.

Is this the kind of man you want representing you in Washington D.C.?

Isn't this the reason that congresses' approval rating is near 8%.

Isn't this the reason our country is in so much trouble?
